1231 – 8th STREET EAST | SASKATOON, SK S7H 0S5
TEL: (306) 343-7280 | www.cwce.ca | FAX: (306) 956-3199

Title: Survey Technologist

What's the Position

Catterall & Wright has an opportunity for an individual to join our survey team as a permanent, full-time Survey Technologist.

We offer work-life balance with the majority of our projects local to Saskatoon and area, allowing our team members to be home with their families at night. Our projects are diverse and provide a wide range of experience and variety.

This position's expectations and requirements include operation of surveying equipment such as RTK GPS, Levels, Manual & Robotic Total Stations and understanding how to utilize these in different surveying environments. Experience with Leica equipment is beneficial but not a requirement.

Schedule - Work Week: Monday-Friday (40 hrs with the possibility of overtime). Typically home every night!

Position is primarily in the field.

Travel: Could be required, most of our projects are local. Any travel required would be in Saskatchewan.

Key Focuses

- Adaptable, dependable and can demonstrate initiative.
- Team player, who can also work independently.
- Honest and reliable with a sense of practical awareness.
- Delivers quality work on time and in an efficient manner.
- Appreciates outdoor work in all types of terrain and conditions.

Core Responsibilities

- Conduct surveys for preliminary, construction and layout surveying tasks related to residential, commercial & industrial land development projects and municipal infrastructure projects such as pipelines, wastewater, lagoons, and roadways.
- Conduct layout surveys for water, sewer, roadways, and earthworks projects as required using RTK GPS, digital and optical levels, manual and robotic total stations, and sonar equipment. We offer Unmanned Aerial Vehicle (UAV) surveying to our clients and may require assistance with the layout of control points, flight assistance and photogrammetric processing.
- Process survey data using appropriate control files and coordinate systems and apply survey knowledge to ensure quality control throughout a project.
- Track earthwork and material quantities as support to the project manager and contract administrator for progress payments.
- Prepare grade sheets for water, sewer and roadways projects.

- Perform site inspections to ensure compliance with construction specifications and provide verbal reports regarding project status and progress to the Survey Manager and Project Manager.
- Ability to travel if necessary (typically within a 300km radius of Saskatoon), work overtime hours, and stay overnight in remote areas depending on project location.

Who We Are Looking For

- Civil or Geomatics Engineering Technology diploma or a Civil Technician certificate;
- Minimum 3-5 years of experience is preferred, but willing to train the right person;
- Ability to work outside in any weather conditions;
- Strong awareness of health and safety and possess a safety-conscious attitude;
- Must be willing to travel and work out of town (expenses will be paid for this occurrence);
- Must have a reliable vehicle for work and maintain a valid Saskatchewan Drivers License and insurance;
- Physically active with the capability of regularly lifting or moving up to 50 lbs.

Who Are We
